LINQ™

Compact, fast, easy-to-use spectrophotometer

The new PPG spectrophotometer is the best of both worlds: small design plus enhanced technology. *PPG DigiMatch* has a functional ergonomic design that is lightweight and can be used with one hand, while also boasting a digital color camera packed with technology. The camera's 6 imaging angles, with additional 6 reflectance angles, provide texture information to help retrieve the correct formula matches, quickly and efficiently.

FEATURES

- Intuitive 2.8-inch high-resolution touchscreen with large icons for easy navigation
- Docking station to charge and store spectro safely and dust free, holding the calibration tiles as well
- Portable, ergonomic and lightweight with the small form allowing users to maneuver into difficult areas on vehicles
- Multi-angle spectrophotometer featuring 6 reflectance and 6 imaging angles, providing a magnified image to avoid defects when taking a reading
- Exclusive shape and coloring with the option to connect via WiFi or USB cable
- Seamless compatibility with *PAINTMANAGER*® XI, *PPG LINQ*™ Color and the perfect companion for *PPG VisualizID*™

BENEFITS

Improve performance

With three pressure sensors around the measurement port, *PPG DigiMatch* takes less than 30 seconds for a car to be read even on curved surfaces, significantly improving body shop and individual painter performance.

Save time

Reduce repair costs and time spent doing spray outs to support your decision in choosing the right color. With *PPG DigiMatch* users are even able to compare the color differences of two adjacent parts.

PPG DigiMatch

Revolutionary multi-angle digital color camera helps body shops big and small match color easier and faster.

Go mobile

The compact, intuitive device is completely mobile with the ability to connect to WiFi. *PPG DigiMatch* is lightweight and can be used with one hand, unlike typical color camera spectrophotometers. The device also has large storage capacity that equates to 160 jobs.

Easy to use

Despite being loaded with technology, *PPG DigiMatch* is incredibly intuitive for painters to use without training due to its high-quality touchscreen interface and large, user-friendly icons. The device seamlessly connects to *PPG VisualizID*, making the color measure and identification process quicker and easier than ever.

PPG is more than paint. Our revolutionary industry-leading connectivity platform has been exclusively designed to completely transform customer experience, partner relationships and internal body shop operations.
